

Mental Health Awareness course – Course code MH29

(This course will be of value to those staff/volunteers who may not usually access Mental Health training and those new to Mental Health Services)

About this Course

Aim: To equip staff with an awareness of mental health problems/illnesses and their impact

Objectives:

- Discuss the way mental health problems/illnesses are viewed by society at large
- Identify how people are assessed, classified and diagnosed
- Discuss some of the legislation and policies including the Care Programme Approach
- Discuss communication skills and how to respond
- Have an opportunity to hear the service users perspective
